DETAILED ACTION

1. Applicant's Appeal Brief filed February 6, 2006 has been reviewed. It is persuasive; therefore the finality of the January 28, 2005 Office Action is withdrawn.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

3. Claims 1, 2, 21-23, 26-41 and 45-58 are rejected under 35 U.S.C. 102(a) as being anticipated by Geller, US 6,236,990.

Geller discloses, e.g. Figs. 2a, 2b, 3, a method/system of ranking products based upon data records, e.g. 162, 164, computer readable storage medium, e.g. 150, 160, 174, feature categories, e.g. col. 3, lines 34+, assigning a weighted importance, e.g. col. 3, line 57 thru col. 4, line 21, assigning evaluative metrics, e.g. 216, ranking products, e.g. col. 8, receiving a plurality of selections, e.g. col. 4, lines 23-42, and providing a customized ranking, e.g. Fig. 3.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 4-6, 8-, 18, 20, 24, 25 and 42-44 rejected under 35 U.S.C. 103(a) as being unpatentable over Geller, US 6,236,990.

Official Notice is taken that associating tags with featured categories in a hierarchical category in marketing of products has been common knowledge in the commercial art. To have provided such for Geller would have been obvious to one of ordinary skill in the art. The motivation for having done such would have been to access further product data associated with a particular product in comparison with other products.

6. Further references of interest are noted on the attached PTO-892.

Conclusion

7. Applicant's November 8, 2004 amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
